Ruea Yachts Launch

By Andrew Johansson. Jun 15, 2010

Yacht Solutions, founded in 2001 by Gareth Twist in Thailand, has announced a new design and yacht construction division to the business. The main focus of this new sister company will be to produce yachts to meet the growing demands of the Asian market. The step forward is the result of a business strategy by the Twist brothers Gareth and Simon, who have over 20 years of experience in design, construction and management expertise within the marine industry.

"We are thrilled to add a superyacht new-construction division to our operations," explains Gareth Twist, Managing Director at Ruea Yachts. "We believe our track record and expertise will attract business from the region and around the world where there is a strong appetite for superbly designed, crafted and competitively priced superyachts."

Twist goes on to explain that Yacht Solutions has built a global reputation for providing high quality and service and that Ruea Yachts was the next logical step to growing the business. Through the application of European marine technology and design, combined with Thai craftsmanship, Ruea Yachts plan to produce yachts from 30 to 85 metres that will conform to Lloyds classifications and
